INTRO TO FOUNDATION TRAINING

Wellness Room

\$35 | Y members & non members
(space is limited – sign up today!)

Intro to Foundation Training is a system of bodyweight exercises that focuses on breath, posture, movement patterns, and muscular engagement. It aims to retrain how your body moves and supports itself. By addressing the root causes of dysfunction and activating deep postural muscles, Foundation Training helps decompress the spine, improve mobility, eliminate chronic pain, and enhance physical capability.

This training develops the structural support needed for everything from daily tasks to demanding physical activities. If you are suffering from chronic pain that persists, have back pain, or are recovering from an injury, surgical procedure, or other physical setbacks that hinder your quality of life—or if your doctor has recommended physical therapy—this program may be right for you.

Kendra is a certified Foundation Training Instructor, Shiatsu Practitioner, and Biodynamic Craniosacral Therapist. With over 20 years of experience in teaching movement practices, she helps individuals reduce chronic pain, improve movement, and build greater resilience by restoring healthy movement patterns, posture, and breathing mechanics. <https://kendrarenzoni.com/>
